“

PocketSuite offered everything I needed and wanted in an app. I run everything through PocketSuite: payments, scheduling, vaccination forms, notes about the grooming session, and conversations with clients. It’s all within the app. If I didn’t have the app, I wouldn’t have anything. If I lost the app, and I couldn’t get back into it, I’d be like ‘I’ve got to burn this down and start a new business or something’!
